WHAT MAKES THIS COURSE SO UNIQUE AND SO EFFECTIVE?

This course is more than a “gold-rush” of knowledge and techniques. Compared to traditional taught course it utilizes the accelerated learning approach to ensure delegates and potential Auditor(s) have both the technical competence and confidence to conduct audits to a higher standard.

ALL COURSES ARE TAUGHT BY LEADING EXPERTS/PRACTITIONERS

Unlike many training companies who train a prepackaged programme with Tutors with only limited audit experience, this course is taught by Tutors who bring a wealth of hands on practical auditing and implementation experience, together with a background in training and education and accelerated learning. Business Edge approved Tutors have trained thousands of people in management systems auditing. When you attend this course, you're taking advantage of all their experience and wisdom.

NO "FACTORY" APPROACH

This is not a mass produced, assembly line course. It is personalised and tailored to the needs of each audience.

TRANSFORMING AUDITOR TRAINING PERFORMANCE AND ACCELERATED LEARNING TO SPEED AND ENHANCE LEARNING

Considered one of the most meaningful and powerful learning experiences in Quality auditing. This remarkable hands-on, practical auditor training explores both how to audit recognised Quality Management Systems and the specific, practical applications of that knowledge. Through lecture, exercises, role plays, paired sharing and reflection, this programme reveals powerful information, usable skills and action steps. Your skills and abilities as an auditor will undergo a significant evolution as you discover the latest developments in International Standards and auditing techniques and tools combined with practical auditing exercises for optimising any learning environment.

ACCELERATED LEARNING AND YOU

Accelerated learning is the most advanced teaching and learning method available today. It's a total system of enhancing and speeding up both the design and learning process. What makes accelerated learning so effective is that it's based on the way we naturally learn. It does this by actively involving the whole person, using physical activity, creativity, collaboration among learners, variety that appeals to all learning styles, contextual learning with real-world immersion, the creation of a positive physical, emotional, and social environment and other methods designed to get people deeply involved in their own learning.

SOME OF THE MANY QUESTIONS YOU WILL HAVE ANSWERED ON THE WORKSHOP

- How can I enhance my professional qualifications and skills?
- How do I audit top management?
- How do we ensure corrective action is taken in a timely manner and is effective?
- How can I improve my auditing performance?
- How can we justify the financial cost of an internal auditing programme?
- With the constraint of time, how can we ensure our sampling is appropriate to the risks?
- How can I audit in a way that makes a positive difference in the attitude within my organisation?
